SUMMARY

A software developer with practical experience in backend development through internships and personal projects. Familiar with **Node.js**, **Express.js**, and **MongoDB** for building web applications with an additional experience in **ReactJS** & **NextJS**. Eager to apply technical knowledge and problem-solving skills in a professional development environment.

WORK EXPERIENCE

Associate Software Engineer - Ekaggata Technologies

May 2023 - Nov 2023

- Designed and implemented multiple web views in Odoo to streamline management of critical business information and transactional data across multiple stores
- Built solutions that significantly improved tracking and managing refund details for a large store network

PROJECTS

Writescape

[GitHub Link](#)

It is a AI based blogging platform that I have created using **MERN-STACK**. This platform provides a seamless writing and publishing experience, allowing users to create, manage, and share their blog posts easily with the help of **Gemini API**.

Tools: MongoDB, Express.js, React.js, Node.js, Gemini API, JWT Auth, Multer, ImageKit, Bcrypt, Vercel, Moment.js

Worknest

[GitHub Link](#)

It is a robust **MERN-STACK** job application platform designed to provide a responsive and user-friendly interface for job seekers and recruiters alike. Users can easily search for job opportunities and apply directly, while recruiters can post job listings to attract potential candidates.

Tools: Node.js, Express, MongoDB, Mongoose, React, Redux Toolkit, Tailwind CSS, Multer, Cloudinary, JWT, Shadcn UI, motion.div

EDUCATION

Oct 2016 - Jan 2020 Bachelor of Computer Applications (BCA) at **CIMAGE Group of Institutions, Patna**

CERTIFICATIONS

[Backend Development Certification](#) **FreeCodeCamp**

SKILLS

Backend	Node.js, Express.js, MongoDB, FastAPI
Frontend	React.js, NextJS, Tailwind CSS, shadcn-ui
Deployment & Tools	Vercel, Git, Linux, Docker
Other	JavaScript, Python, TypeScript
